

# COMPARING ECOSYSTEMS

Write the name of the ecosystem you're exploring in the left column, then write your observations across the row.

| Other<br>(hills, rocks, streams, temperature) | Animals<br>(Seen or evidence found) | Plants | Soil |  |
|---|-------------------------------------|--------|------|--|
|   |                                     |        |      |  |
|   |                                     |        |      |  |
|   |                                     |        |      |  |
